

FOFEM 6.7 Install Instructions for Forest Service Users

These instructions are only for Forest Service users who do not have run elevated privileges. Other users can install FOFEM simply by extracting the folders and files from the zip file, then navigating into the *Release* folder and double-clicking *Setup.exe*.

- 1) Open File Explorer and, if it doesn't already exist, create a folder named *C:\FireApps*.
- 2) Copy *FOFEM_6-7install.zip* into the *C:\FireApps* folder.
- 3) Right-click the zip file and select **Extract All**.

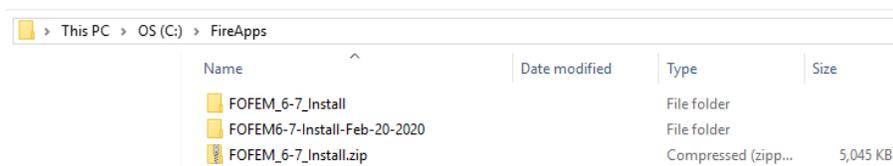

- 4) Click **Extract** to move the files into the destination folder *C:\FireApps\FOFEM_6-7_Install*

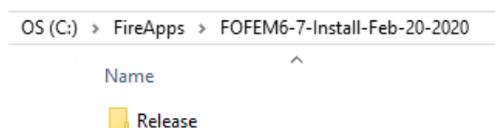

- 5) Open the *FOFEM_6-7_Install* folder, right-click the *FOFEM6-7-install-Feb-20-2020* folder and select **Copy**.

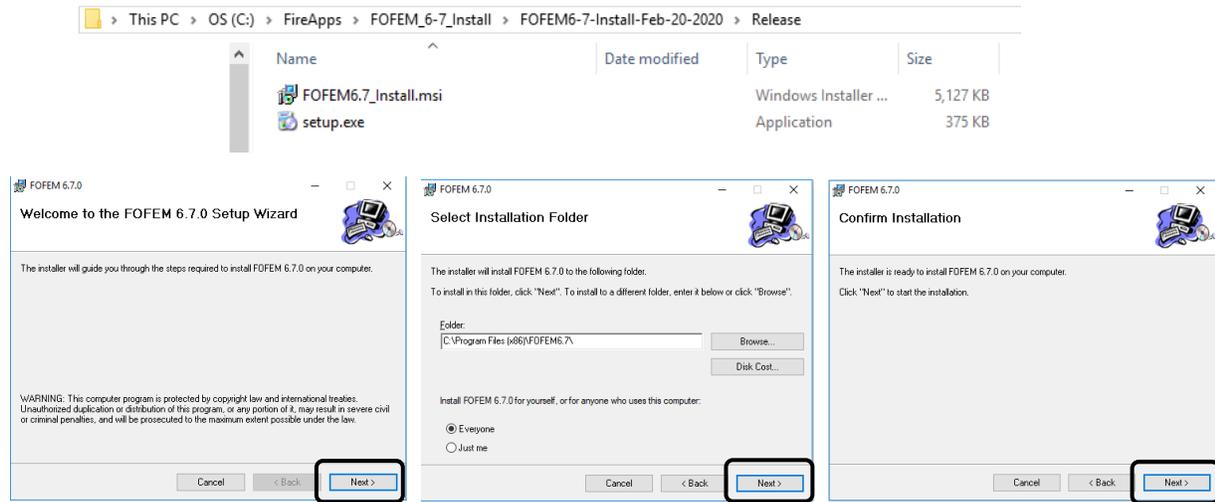

- 6) Navigate up one folder to *C:\FireApps*, right-click in the folder a select **Paste**. The *FireApps* folder should now have two FOFEM folders and the zip file in it.

- 7) Double-click the *FOFEM6-7-install-Feb-20-2020* folder and then double click the *Release* folder.

8) Double-click on *FOFEM67_Install.msi* to begin the FOFEM installation and click **Next** on the three installation screens (accept the default installation folder).

9) Click **Close** to finish the installation.
